CAREER OBJECTIVE

Experienced, versatile and team driven professional educator with a solid commitment to utilizing my knowledge and skills to create engaging and effective learning experiences for students working at all levels. I strive to develop innovative teaching strategies and technology into my lessons to ensure students can reach their full potential and achieve academic success while being engaged in their own learning. To achieve this, it is my goal to create dynamic and engaging learning experiences that incorporate real-world experiences with practical skills that align to state standards, while meeting the needs and interests of students at their level. It is my belief that students should be inspired and engaged in their own learning, and when this occurs, students are able to achieve their full potential.

VIRTUAL EXPERIENCE

- Designed and implemented engaging virtual lessons that incorporated a variety of multimedia tools and technologies to foster student learning and engagement.
- Developed and implemented formative and summative assessments within Canvas and MasteryConnect to measure student mastery of curriculum and identify areas for improvement to guide instruction.
- Facilitated live session class discussions and activities that encourage building a classroom community and collaboration among students.
- Designed and developed a comprehensive pacing calendar and daily lessons for all subjects at the fifth grade level that aligned with state standards.
- Designed and implemented lessons such as virtual field trips to engage students in content; such as a virtual field trip to outer space.
- Created and adapted virtual learning resources, including videos and interactive activities to support student learning and engagement.
- Recorded standards-driven lessons for reading, math and science
- Designed and launched a Google Site to house and display recorded lessons and activities for students

LEADERSHIP EXPERIENCE

- Lead a professional development of MasteryConnect via recording and a presentation for references
- Designed and developed course shells aligned with standards for bridging fifth to sixth graders for a 4-weeks reading and math summer course for Virtual Virginia
- Collaborated with colleagues to develop and refine virtual learning resources, activities, and assessments.
- Demonstrated a commitment to ongoing professional development and learning to enhance virtual teaching skills and stay current with emerging trends and best practices.

IN-PERSON CLASSROOM EXPERIENCE

- Trained and Implemented in Responsive Classroom and Growth Mindset to promote success and confidence in students
- Team taught inclusion classroom with special education teacher and IA
- Created and implemented cross curricular Project Based Learning units aligned to state standards to create real world and authentic learning experiences.
- Created a strategic plan and timeline for implementing lessons to integrate curriculum including enrichment and remediation
- Developed and implemented a blended learning approach to guide learning with a focus on a purposeful and systematic way for student driven investigation across grade level content
- FCPS Cares Award - Region 2 Recipient May 2020- Going the Distance
- Designed formative and summative assessments to gauge student growth, progress and interventions to drive instruction
